Consequentw the distinguished prisoner will be brought Dublin, and the writ argued before the court Queen's Bench, from whence, if the deciion is unfavorable, it will be removed to the House of Lords. A similar sanction has been granted in favor of Meagher, McManus and

France -The election of President continues to engross general attention. A majority of the members of the Assembly had resolved to postpone the election until February, but Cavaignac decided against the postponement. and all opposition was checked. The election will therefore take place on the 11th of De cember. The friends of Louis Napoleon feel confident of success.

The Cholera -- This dreaded disease is progressing insidiously in various parts of Engint is not oceating undue alarm. The weekly deaths are still below an average of the last five years

Austria .- The interrupted state of communication precludes correct details from the beleaguered city. Accounts to the 28th October, through Berlin, state that every inducement to surrender having failed, Windischgratz commenced bombarding the city, which he and Jollachish still completely surrounded with a large force, which was daily increas-

The water and gas pipes supplying the city have been detached by the imperial troops after a severe conflict to capture the works. There was renewed reports of an advance of

the Hungarians up the Danube to relieve the city, but at each successive approach they rebetween the beseiged and beseigers, attended with considerable slaughter.

The Emperor is at Olmutz, and has ordered the transfer of the Diet to Kreussia, about midway between Olmutz and Vienna. Windeschgratz steadily refuses to enter the city wholst the citizens are armed, as it would Count Latours

The citizens are in the meantime in extreme want of provisions, and the certainty that mamy feel of conding punishment from Windeschgratz, stimulates them to induce the popuface to hold out to the last. The popular party demands a general amnesty, popular ministers, and the removal of all troops. On these conditions the working classes and the Aca emic Legion will submit to the disarming.

The chances of peace preponderates. The King of Sardinia has wisely hesitated to reenter into hostilities, and negotiations will prevent further appeals to arms. The German central power proposes that Lombardy shall remain attached to Austr a but form a part of the Italian Diet, which several Italian sovereigns are anxious to create. Thus Lombardy would hold the same relation to Italy that the Duchy of Luxemburg holds to Ger-
